

Dear Friends,

I am writing to you as fellow conservatives. Our community is at a unique crossroads, and we need your help to make sure our long-standing, generational conservative values are represented. Our balanced, conservative values have made Kanab a desirable and attractive place to live and raise families.

Over the course of many months now, a singular and highly vocal special interest group has been pushing left-wing propaganda. While much of it deals with the group's opposition to a specific industry, we know that the philosophical and political issues are deeper than that. Their world view is *very* different from the mainstream Kanab citizen.

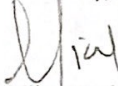

The left-wing has used the sand mine as a rallying point to mobilize their efforts and promote their platforms. First it was about "sand," then it was about "fracking," and what will it be next? One can only guess. But, it is not going to stop. The left-wing will continue to push their agenda. We must push back to keep Kanab as a conservative constitution supporting community.

Our proven, currently serving municipal officials have done a good job holding the line on conservative values. They have paid a heavy price in the media and from the left-wing. They deserve our support. If we don't support them, we will see the continued encroachment of left-wing and the erosion of conservative values.

You will receive a mail-in ballot for the November 5<sup>th</sup> elections very soon. Don't delay in voting. Vote to maintain balance and civility in our community. We strongly urge you to vote carefully, thoughtfully and conservatively.

I have represented you for 16 years in the Utah State Legislature which was an honor. I realize I am just one voice now but hopefully you will look at my record as a reflection of my values and your values. Today a House of Representatives seat in Texas that has been democratic for 139 years was won by a Republican Hispanic man who is supports protecting our borders, protecting the lives of the unborn and honoring our constitution which includes the second amendment. It's extremely important that these values and other conservative values be represented from the executive branch of state government to the legislative to the counties and to the municipal elections. That is why I support our Mayor and our entire incumbent city council and ask that you vote for every incumbent. One candidate is manipulating the system by telling his supporters to only vote for him (bullet voting). This is wrong and contrary to our conservative principles.

Sincerely,

Mike Noel

**Please VOTE in the 2019 Kanab Municipal Election!**

**Who are the proven Council members up for re-election?**

Arlon Chamberlain

Michael East

Celeste Meyeres

**So do I pick only one of the City Council candidates? Or how does it work?**

There are 3 seats open for 4 year terms, and voters will be able to pick 3 of those 5 candidates.

**Who is running against the City Council leaders who are currently serving?**

Bartholomew Battista

James Wendell Head

Both have recently moved to the area from out of state. Mr. Head is retired and moved from Las Vegas. Mr. Battista arrived from California to work for Best Friends and is the son of a Best Friends founder.

Opposition is urging voting ONLY for their 1 candidate in an attempt to undermine the existing Council.

**I like this person on City Council, I don't really know the others...**

ALL of those currently in office have been working together to protect us from big government & to keep Kanab's identity intact.

**What about the sand mine?**

This is a wedge issue full of false narratives in an attempt to influence the election.

The truth is that this is a project on State school trust lands, 10.5 miles outside the City.

Blaming the City is a mis-direct to try to gain control of City politics.

The City Council has very little ability, if any, to support or oppose the sand mine. The City leaders should be focused on the many issues that are within their control, rather than the single issue that is outside City jurisdiction.

Opposition knows that they can't win with a traditional majority vote, therefore they are employing questionable strategies.

**Why your choice matters:**

The current City Council members have been faithfully serving our community and fighting to preserve our small-town values. Even though we may not agree with every decision, they truly care about our hometown principles and way of life.

**"How can I help?"**

- 1) Encourage others to register to vote (such as those who recently turned 18 and/or moved to Kanab)
- 2) Talk with others and invite them to vote with you

This is a crucial election, as Kanab is at the crossroads of losing our heritage values.

Let's have the highest turnout EVER in a Kanab City municipal election!
